Kim/Elaine,

We already recommended a bench study approach in our comments to MassDEP...see comment 9b. Otherwise, these look fine...I'm around the rest of the afternoon if you want to discuss anything.

Hi Kim,

Attached are my comments on your latest draft. I have also attached our recent intertidal sampling results on a table and in a figure for the Titliest property. I plan to get out to them this week and will ask for permission from them to forward these results to AVX and DEP. Please let me know if you have any questions. I am WAH today.

Elaine

Elaine:

I know you were overloaded last week, but was hoping you could take a look at these comments on the Phase III. I added a bit more based on Cindy's suggestions so this is the better version to review. I left in Cindy's comments so you can see what I added.

Thanks much!
